- As an ESS user, I want to add/edit my contact information so that the company can reach me
- Acceptance Criteria:
 - User can edit Country, Street 1, Street 2, City/Town, State/Province, ZIP Code
 - User can edit Home Telephone, Mobile, Work Telephone, Work Email, Other Email
 - For US addresses, State can be selected from dropdown
 - Changes are saved successfully

5. Add Emergency Contacts

- As an ESS user, I want to add emergency contact details so that the company can contact someone in case of emergency
- Acceptance Criteria:
 - User can add Name, Relationship, Home Telephone, Mobile Number
 - Multiple emergency contacts can be added
 - User can delete emergency contacts
 - User can attach supporting documents
 - Attachments can be uploaded

6. Manage Dependents Information

- As an ESS user, I want to add information about my dependents so that the company has my family details
- Acceptance Criteria:
 - User can add Name, Relationship, Date of Birth
 - Multiple dependents can be added
 - User can delete dependents
 - User can attach supporting documents

7. Manage Immigration Documents

- As an ESS user, I want to add my immigration information so that my visa/passport details are on record
- Acceptance Criteria:
 - User can select Document Type (Passport/Visa)
 - User can add Number, Issued Date, Expiry Date, Eligible Status, Eligible Review Date
 - User can add comments
 - Multiple immigration documents can be added
 - User can delete immigration documents
 - User can attach supporting documents

Epic 2: Employee Self-Service (ESS) - Job Information

User Stories:

1. View Job Details

- As an ESS user, I want to view my job information so that I can see my employment details

- Acceptance Criteria:
 - User can view Job Title, Job Specification, Employment Status, Job Category
 - User can view Joined Date, Sub Unit, Location
 - User can view Employment Contract Start Date, End Date
 - All fields are read-only for ESS users
 - User can view attachments

2. View Salary Information

- As an ESS user, I want to know that my salary information is kept confidential
- Acceptance Criteria:
 - Salary information is completely hidden from ESS users
 - Only HR Admin can access salary details
 - User understands salary must be communicated manually

3. View Reporting Structure

- As an ESS user, I want to see who I report to and who reports to me so that I understand my position in the organization
 - Acceptance Criteria:
 - User can view assigned supervisors
 - If user is a supervisor, they can view assigned subordinates
 - All fields are read-only
 - Attachments are viewable
-

Epic 3: Employee Self-Service (ESS) - Qualifications Management

User Stories:

1. Add Work Experience

- As an ESS user, I want to add my previous work experience so that my employment history is on record
- Acceptance Criteria:
 - User can add Company, Job Title, From Date, To Date, Comments
 - Multiple work experiences can be added
 - User can edit/delete work experiences

- Multiple entries can be deleted simultaneously

2. Add Education Details

- As an ESS user, I want to add my educational qualifications so that my academic background is documented
- Acceptance Criteria:
 - User can add Level, Institute, Major/Specialization, Year, Start Date, End Date, GPA/Score
 - Multiple education entries can be added
 - User can edit/delete education entries
 - Multiple entries can be deleted simultaneously

3. Add Skills

- As an ESS user, I want to add my skills so that the company knows my capabilities
- Acceptance Criteria:
 - User can select skill from predefined list
 - User can add Years of Experience and Comments
 - Multiple skills can be added
 - User can edit/delete skills
 - Multiple entries can be deleted simultaneously

4. Add Language Proficiency

- As an ESS user, I want to add languages I speak so that my language abilities are known
- Acceptance Criteria:
 - User can select language from predefined list
 - User can specify Fluency, Competency, Comments
 - Multiple languages can be added
 - User can edit/delete language entries
 - Multiple entries can be deleted simultaneously

5. Add Licenses

- As an ESS user, I want to add my professional licenses so that my certifications are on record
- Acceptance Criteria:
 - User can select license type from predefined list
 - User can add License Number, Issued Date, Expiry Date
 - Multiple licenses can be added
 - User can edit/delete licenses

- Multiple entries can be deleted simultaneously

6. Add Qualifications Attachments

- As an ESS user, I want to upload supporting documents for my qualifications
- Acceptance Criteria:
 - Maximum file size: 1 MB per document
 - Multiple documents can be uploaded
 - User can delete attachments
 - User can add comments to attachments

7. Add Membership Details

- As an ESS user, I want to add my professional memberships so that my affiliations are documented
 - Acceptance Criteria:
 - User can select membership from predefined list
 - User can add Subscription Paid By, Subscription Amount, Currency, Subscription Commence Date, Subscription Renewal Date
 - Multiple memberships can be added
 - User can edit/delete memberships
 - User can attach supporting documents
-

Epic 4: User Management & Administration

User Stories:

1. Create System Users

- As an HR Admin, I want to create user accounts so that employees can access the system
- Acceptance Criteria:
 - Admin can assign User Role (Admin/ESS)
 - Admin can set Status (Enabled/Disabled)
 - Admin can create unique username
 - Admin can link to Employee Name
 - Admin can set password and confirm password
 - Passwords must match
 - Default Admin user exists with full access

2. Manage User Accounts

- As an HR Admin, I want to edit/delete user accounts so that I can manage system access
- Acceptance Criteria:
 - Admin can edit user details
 - Admin can delete single users
 - Admin can delete multiple users simultaneously
 - Record count updates after adding/deleting users
 - Disabled users cannot login

3. Search Users

- As an HR Admin, I want to search for users so that I can quickly find and manage specific accounts
 - Acceptance Criteria:
 - Admin can search by username, user role, employee name, status
 - Search results display matching users
 - Reset button clears search criteria
-

Epic 5: Job Configuration & Management

User Stories:

1. Define Job Titles

- As an HR Admin, I want to create job titles so that I can assign them to employees
- Acceptance Criteria:
 - Admin can add Job Title, Job Description, Job Specification, Note
 - Multiple job titles can be added
 - Admin can edit/delete job titles
 - Multiple entries can be deleted simultaneously

2. Configure Pay Grades

- As an HR Admin, I want to define pay grades with salary ranges so that compensation is structured
- Acceptance Criteria:
 - Admin can create pay grade name
 - Admin can assign multiple currencies to each pay grade
 - Admin can set minimum and maximum salary per currency
 - Maximum salary must be higher than minimum

- Admin can edit/delete pay grades and currencies
- Multiple currencies can be deleted simultaneously

3. Define Employment Status

- As an HR Admin, I want to create employment status types so that I can classify employee contracts
- Acceptance Criteria:
 - Admin can add employment status name
 - Multiple statuses can be added (e.g., Full Time, Part Time, Contract, Terminated)
 - Admin can edit/delete employment statuses
 - Multiple entries can be deleted simultaneously

4. Create Job Categories

- As an HR Admin, I want to define job categories so that I can group similar positions
- Acceptance Criteria:
 - Admin can add job category name
 - Multiple categories can be added
 - Admin can edit/delete job categories
 - Multiple entries can be deleted simultaneously

5. Configure Work Shifts

- As an HR Admin, I want to define work shifts so that I can assign employees to different schedules
- Acceptance Criteria:
 - Admin can add Shift Name, Work Hours (From/To)
 - Admin can assign employees to shifts
 - Admin can move employees between Available and Assigned lists
 - Multiple work shifts can be created
 - Admin can edit/delete work shifts
 - Multiple entries can be deleted simultaneously

Epic 6: Organization Structure & Configuration

User Stories:

1. Manage Company General Information

- As an HR Admin, I want to enter basic company details so that the organization profile is complete
- Acceptance Criteria:
 - Admin can add Name, Registration Number, Tax ID, Phone, Fax, Email, Address
 - Fields are pre-filled by default and disabled
 - Admin must click Edit to modify information
 - Changes are saved successfully

2. Define Company Locations

- As an HR Admin, I want to add company locations so that I can track where employees work
- Acceptance Criteria:
 - Admin can add Name, Country, State/Province, City, Address, ZIP Code, Phone, Fax, Notes
 - Multiple locations can be added
 - System tracks number of employees per location
 - Admin can search locations by Name, City, Country
 - Admin can edit/delete locations
 - Multiple entries can be deleted simultaneously
 - Reset button clears search criteria

3. Build Organization Structure

- As an HR Admin, I want to create the organizational hierarchy so that reporting relationships are clear
- Acceptance Criteria:
 - Parent company appears automatically from General Information
 - Admin can add sub-units with Name and Description
 - Admin can create multi-level hierarchies (pyramidal structure)
 - Admin can expand/collapse sub-units for better visualization
 - Admin can add sub-units to any level
 - Admin can delete sub-units
 - Changes are saved successfully

Epic 7: Qualifications Configuration

User Stories:

1. Configure Skills Master List

- As an HR Admin, I want to define available skills so that employees can select from standardized options
- Acceptance Criteria:
 - Admin can add Skill name and Description
 - Multiple skills can be added
 - Admin can edit/delete skills
 - Multiple entries can be deleted simultaneously
 - Skills are available for selection in ESS module

2. Configure Education Levels

- As an HR Admin, I want to define education levels so that employee qualifications can be standardized
- Acceptance Criteria:
 - Admin can add education level name
 - Multiple levels can be added (e.g., High School, Bachelor's, Master's, PhD)
 - Admin can edit/delete education levels
 - Multiple entries can be deleted simultaneously
 - Levels are available for selection in ESS module

3. Configure License Types

- As an HR Admin, I want to define license types so that professional certifications can be tracked
- Acceptance Criteria:
 - Admin can add license type name
 - Multiple license types can be added
 - Admin can edit/delete license types
 - Multiple entries can be deleted simultaneously
 - License types are available for selection in ESS module

4. Configure Languages

- As an HR Admin, I want to define languages so that employee language skills can be documented
- Acceptance Criteria:
 - Admin can add language name
 - Multiple languages can be added
 - Admin can edit/delete languages
 - Multiple entries can be deleted simultaneously

- Languages are available for selection in ESS module

5. Configure Membership Types

- As an HR Admin, I want to define membership types so that employee affiliations can be tracked
 - Acceptance Criteria:
 - Admin can add membership name
 - Multiple memberships can be added
 - Admin can edit/delete memberships
 - Multiple entries can be deleted simultaneously
 - Memberships are available for selection in ESS module
-

Epic 8: Authentication & Access Control

User Stories:

1. Login to System

- As a user, I want to login with my credentials so that I can access the OrangeHRM system
- Acceptance Criteria:
 - User enters username and password
 - System validates credentials
 - User is directed to appropriate dashboard based on role
 - ESS users land on Personal Details screen on first login
 - Admin users land on Admin dashboard
 - Error message shown for invalid credentials

2. Forgot Password

- As a user, I want to reset my password if I forget it so that I can regain access
- Acceptance Criteria:
 - "Forgot your password?" link is available on login page
 - User can request password reset

3. Manage Access Permissions

- As a system, I want to restrict user access based on their role so that data security is maintained
- Acceptance Criteria:
 - ESS users can only edit certain fields

- Restricted fields are clearly indicated
 - HR Admin has full access to all features
 - Security policy is enforced throughout the system
-

Epic 9: System Configuration

User Stories:

1. Configure System Settings

- As an HR Admin, I want to configure system-wide settings so that OrangeHRM works according to company needs
- Acceptance Criteria:
 - Admin can configure email notifications
 - Admin can set language localization
 - Admin can set date format
 - Settings reflect throughout the system

2. Enable/Disable Modules

- As an HR Admin, I want to enable or disable modules so that users only see relevant features
- Acceptance Criteria:
 - Admin can toggle module visibility
 - Disabled modules are hidden from users
 - Changes take effect immediately

3. Manage Security Settings

- As an HR Admin, I want to configure security settings so that the system is protected
 - Acceptance Criteria:
 - Admin can set password policies
 - Admin can configure session timeout
 - Security settings are enforced
-

Technical Epic: Data Management & Attachments

User Stories:

1. Upload Attachments

- As a user, I want to upload supporting documents so that I can provide evidence for my information
- Acceptance Criteria:
 - Maximum file size: 1 MB
 - User can browse and select files
 - File uploads successfully
 - Uploaded files are listed

2. Delete Records

- As a user, I want to delete entries so that I can remove incorrect or outdated information
- Acceptance Criteria:
 - User can delete single entries via delete icon
 - User can select multiple entries via checkboxes
 - "Delete Selected" button deletes all checked items
 - Confirmation prompt before deletion
 - Records are permanently removed

3. Search and Filter Data

- As a user, I want to search for records so that I can quickly find specific information
- Acceptance Criteria:
 - Search fields are available for relevant criteria
 - Results update based on search input
 - Reset button clears all search criteria
 - No results message when nothing matches

System Architecture Notes

- **Hosting:** Two servers (one for website/code, one for database)
- **Access:** Internet-enabled PC required
- **Security:** Company-defined security policy enforced
- **User Roles:** Admin (full access) and ESS (limited access)

- **Document Versioning:** Version 1 of the SRS
-

Default Credentials (for Testing)

HR Admin:

- Username: Admin
- Password: admin123

ESS Employee:

- Username: John Doe
- Password: John@123
